Reading about space

Reading intriguing
articles and blogs

ABOUT

I am a self learned programmer, with immense interest in 'building'
things.

I am well versed with HTML/CSS, JavaScript and React JS library. I am
quick learner of latest web technologies and also believe that one must
be agile enough to stay relevant in the fast paced world.

I intend to produce the necessary output, while staying relevant to the
process. Also believe in learning everything relevant to my skills, and
simultaneously contributing a major chunk on the table.

WORK EXPERIENCE

Kaizen Experience

SEO Intern

(August 2020 - Present)

- Primary responsibilities included writing brief content about the video
for the description.
- Adding most relevant tags according to the requirements.
- Maintaining the content in order to reach the maximum reach and
growth.

ADDITIONAL

Portfolio Website

<https://shub78910-portfolio.netlify.app/>

This is my portfolio website and I have added all my projects here.

Hosted a Book club

Hosted a book club on Avalon meta discord. Completed the book
"Astrophysics for People in Hurry" by Neil DeGrasse Tyson in a very
short span of time.

Blog Writing

<https://shubhira.blogspot.com/>

Have been maintaining a blog page for almost 2 years. Mainly the
content is related to science, life experiences and thoughts.
